"MY DEAR MS. KNOX: The "AMERICAN EMBABST, "MEXICO. February 4, 1915.

"MY DEAR MR. KNOX: " The area of the revolutionary movement in the south continues to be about the same as the political associates of the President are said to be identified with the measure for reasons not compatible with the public good, and not only are there doubts as to the ability of the Government to intelligently and successfully carry out the details, but there is extreme scepticism as to the motives of those who it is believed will be largely concerned with the administration of the money.

"AMERICAN EMBABST, "MEXICO. February 4, 1915.

"MY DEAR MR. KNOX: " The area of the revolutionary movement in the south continues to be about the same as hitherto, though the scene of activity is constantly changing. The revolutionary forces occupy and relinquish at quick intervals various parts of the State of Michoacan, Morelos, Mexico. Guerrero, Puebla and Vera Cruz, passing with almost incredible rapidity from one point to another.

"On one day there are well confirmed reports of activities embracing the destruction of property and life, the burning of towns and haclendas, the ravish-

and the large reserves stipulated by the country's financial obligations, which existed at the time of the downfall of the Government of Gen. Diaz, have given place to disorder and a dissipation, through unknown but presumably in some instances corrupt channels, of the treasures which a wise and thrifty Government had accumulated. Its acute distress has led the Government to re-sort to all sorts of quack economic remedies, like the imposition of unusual tariff dtules and the taxation of the raw products of the country, while at the same time it is imperilling its good name in the financial world by attacking and appropriating those sacred reserves to which the honor of the nation is pledged. "Confronted by the intelerable condi-tions which exist throughout the coun-try, the Administration of President Madero remains impotent to remedy or of-fer any solution for the rapidly ac-cumulating dangers. The Cabinet is di-vided into warring factions of radically conflicting views, all of which are absorbed in petty intrigues and lillupu-tian politics, which have little to do

"The kind of Government that must necessarily be evolved out of a situation like this could not be otherwise than that which exists, viz.: one that is impotent in the face of domestic ills and disorders, and truculent, insolent and insincere in its international relations. A Government which came into power with an altruistic programme and with party pledges of a free press, free elections, free education and the division and distribution of great estates finds itself after a period of a little more than a year in a position of not having accomplished any of its high sounding measures for the relief of the Mexican population, but responsible for the sacrifices of thousands of human lives, the destruction of vast material interests, aggravation in the conditions of the poorer classes, for unspeakable barbarities and for desolation and ruin over a third of the area of the republic.

arrangement between Huerta and Carranza. These telegrams, which are on secord, show that all that Carranza wanted was 'protection.' I displayed some activity in trying to induce Huerta to satisfy Carranza, but could not get prompt attention.

The attitude of the Huerta Government was so unresponsive that Carranza believed that he was marked out for punishment and renewed his revoluonary activities. I do not personally know that Carranza was guilty of any misdemeanors. I am simply stating what the record made at the time was.

The second instalment of the Mexican diplomatic correspondence will be printed in THE SUN next Sunday, August 6. The disclosures are as interesting as those made in the first part of Ambassador Wilson's official narrative and of even greater importance. The documents include a warning given to the Wilson Administration of what would happen if Huerta was not recognized—a prediction strikingly fulfilled. Then there are hitherto unpublished despatches relating to the murder of President Madero. All with the salvation of the country or the restoration of national prestige at home marised and Ambassador Wilson's for the crime are presented. Altogether it is a chapter of history throwing such light on the present situation that no one should neglect

\$5,000 A YEAR FOR 2 BABIES. Referee Relieves Their Mother of Pinancial Burden.

That twin babies who can afford to support themselves should not be a financial burden to their mother was decided yesterday in the Surrogate's Court by Referee Joseph McCloskey, appointed to hear the application of Mrs. Annie M. O'Brien of the Sherman Square Hotel to be reimbursed for expenses incurred by her children.

O'Brien, who left her \$167,852 and each of his twins the same amount, from which they get an income of \$8,000 a year each. The Surrogate allowed them \$5,000 a year each for their support, but before this allowance was granted Mrs. O'Brien had spent \$8,302 on them. She asked to have this paid to her from their funds. She said the health of the children makes necessary expensive medical attention and frequent changes of climate.

The referee decided the money should be paid to her.
